ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.

4) The attending veterinarian for this research facility has appropriate authority to assure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and

Summary of IACUC-Approved Exemptions to Regulations and Standards

IACUC-Approved Exemption	Description of IACUC-Approved Exemption	Species of Animal	Number of Animals
Section 3.81 Environment Enhancement and Section 3.83 Watering	Individual housing while on behavioral experiments and water restriction during taste testing	Nonhuman Primate	13

ASSURANCE STATEMENTS
USDA ANNUAL REPORT

Facility Name: The Pennsylvania State University

Registration Number: 23-R-0021

This facility assures that professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed.

~~This facility assures that each principal investigator has considered alternatives to painful procedures.~~

This facility assures that it is adhering to the standards and regulations under the Act, and that it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). When there are exceptions, a summary of exceptions will be attached to our Annual Report of Research Facility for University Park, Commonwealth Campuses and Hershey Medical Center along with a brief explanation.

~~The facility assures that the attending veterinarians have appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.~~

Gentlemen:

Enclosed is a completed Annual Report of Research Facility form for Rohm and Haas Company
(Certificate Number 23-R-0037).

This form documents that we had no protected species at our Spring House Technical Center
during October 1, 2001 through September 30, 2002.

Sincerely,

This report is required by law (7 USC 2143). Failure to report according to the regulations can

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

c. Note that sodium pentobarbital is not completely soluble in aqueous media at the concentrations you will be preparing. Therefore, expect the solutions to be slurries.

2. Administer the appropriate dose intraperitoneally. Since the stock solution is a slurry, be sure to thoroughly mix it immediately before drawing into the syringe.

3. Return the animal to its cage and wait until breathing ceases. This typically requires only a few minutes.

C. Cervical Dislocation

This technique is only for immature rats (weanlings or younger) and mice. Do not attempt this technique without supervision.

1. Lightly anaesthetize the animal with isoflurane.

2. Place the animal on a hard surface, belly down.

3. Hold the base of the tail with one hand. Place the thumb and index finger of your other hand on either side of the neck at the base of the skull.

3. Quickly pull the base of the tail such that the cervical vertebrae dislocate. Immediately check that the animal has ceased breathing.

Following euthanasia, the carcass is to be tightly sealed in a plastic bag, and placed in the carcass freezer in the LSRL. The log taped to the top of the freezer is to be completed.

Saint Vincent College -- 23-R--0068

ASSURANCE STATEMENT

Saint Vincent College follows professionally accepted standards regarding the care, treatment and use of animals. Specifically, we comply with Animal Welfare Act (and amendments), we follow the guidelines put forth in the "Guide for the Care and Use of Laboratory Animals" (published by the Animal Resources Program, NIH), and we follow the recommendations of the Panel on Euthanasia of the American Veterinary Medical Association.

All research involving the use of animals is approved by the IACUC. When appropriate, the IACUC directs principal investigators to employ specific alternatives or modifications that reduce the use of animals. We approve projects that are exceptions to the standards or

ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and

Elizabeth Goldentyer, DVM
Regional Director – Animal Care Eastern Region
United States Department of Agriculture
Animal and Plant Health Inspection Service
920 Main Campus Drive, Suite 200, Unit 3040
Raleigh, NC 27606-5213

Dear Dr. Goldentyer:

Attached is the annual report for regulated animal usage by Hamot Medical Center for the calendar year October 1, 2001 through September 30, 2002. Originally, I initiated this report via the Internet but our administrators preferred direct endorsement of the document. While both documents contain identical disclosures, please ignore the Internet draft and use the enclosure for reporting. This will preclude redundant reporting of information from our facility.

If you have any questions, you can contact me directly at (814) 877-2684. Thank you.

Cordially,

ASSURANCE STATEMENTS

I, the undersigned, certify that the following standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.

Each principal investigator has considered alternatives to painful procedures.

This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.

The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and
